

~~CONFIDENTIAL~~

Assistant Director for Policy Coordination

26 June 1951

Deputy Comptroller

25X1A

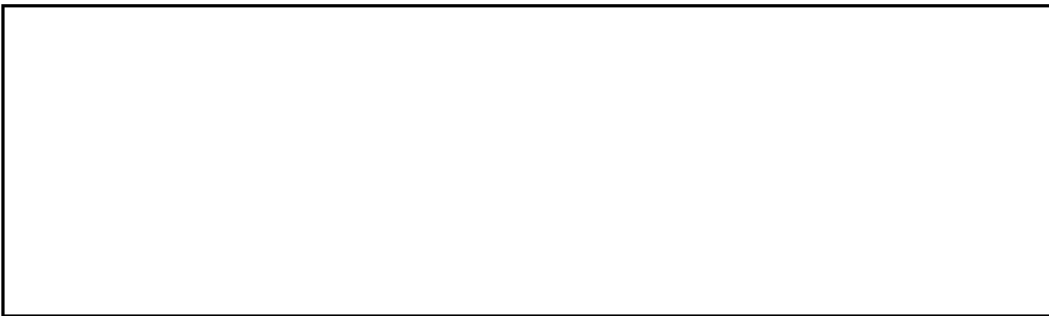

☐ Projects

25X1A

1. Under date of 5 April 1951, I prepared at the request of OPC a recommended procedure for the consolidation of all existent and future ☐ projects under a single Financial Plan. This plan, if adopted, would provide a permanent basis for the advancement of and accounting for funds granted to ☐ by CIA for approved activities of mutual benefit.

25X1A

25X1C

4. Inasmuch as there are approximately eighteen outstanding advances which are, at present, to be accounted for in accordance with specific Financial Plans recommended by the Covert Coordination Committee and approved by the ADPC, it may be that an impasse has developed which will preclude the settlement of these advances.

5. Inquiry therefore is made as to whether there have actually been developments which may warrant or require revision of the present accounting requirements. If this is the case, it would appear desirable to initiate the necessary action as soon as possible in order that the situation may be handled as expeditiously as possible.
